ABOUT THE PEAK PERFORMANCE MINDSET WORKSHOP

The Peak Performance Mindset Workshop offers a cohesive framework that pulls together all elements for growing a peak performance mindset. The framework gives participants the awareness to identify areas of strength and opportunities for growth. Participants will learn the actions they can take to reach their quota, achieve their personal goals, enhance relationships, improve their focus, stretch resilience, and enhance productivity and well-being.

The training is based on the latest research in positive psychology, cognitive-behavioral and brain science as it relates to the development of a peak performance mindset and how it can be improved and maintained.

The Peak Performance Train-the-Trainer Workshop has been delivered to sales executives, C-Suite leaders, sales managers, and employees at companies such as SAP, ClearSlide, ConnectAndSell, Sungard, Ring Central and Heartland Payment Systems to name a few.
